CLIENTE PRE- TREATMENT INSTRUCTIONS

- Avoid tanning or self tanning products for 4 weeks
- Daily use of SPF 30 or higher with 8-9% Zinc
- Shave 12-24 hours prior to treatment.

PROCEDURE

Procedure can last 15minutoes- 1:00 depending on area.

Pain tolerance is different for everyone.

AFTERCARE

- Immediately after treatment there may be redness and swelling on treatment site. This usually lasts 2 hours or longer. The redness may last up to 10 days. The treatment area may feel like a sunburn for a few hours after the treatment, but will subside.
- Apply Ice as needed
- Hydrocortisone may be used for 3-5 days post treatment.
- Treat your skin gently for at least 24 hours after your treatment.
- Shaving is permitted.
- No heat, such as saunas, steam rooms, jacuzzis, extremely hot showers or strenuous activities. No prolonged heat for a minimum of 48 hours post treatment.
- Avoid sun exposure to prevent hypo or hyperpigmentation
- Avoid picking or scratching the treated areas. Please do not use any hair removal treatments such as electrolysis, tweezing or waxing in between treatments.
- Up to two weeks post treatment you will notice shedding of the treated hair. This is not growth. You can clean and remove the hair with soft exfoliant.
