

HYDRAFACIAL

Hydrfacial is the only hydradermabrasion procedure that combines cleansing, extraction and hydration simultaneously, resulting in clearer, more beautiful skin with little to no downtime.

TREATMENT EXCLUSIONS

- Roaccutane within the last six months
- have an allergy to aspirin, prawns or honey
- autoimmune disorders
- pregnant or are breastfeeding
- cold sores in the previous month
- cosmetic injections in the preceding week
- other procedures to the area recently, such as laser, chemical peels, or waxing
- lymphatic disorder
- active eczema, open wounds, or fresh scars on the area.

PROCEDURE

- Procedure may vary from 30minutes - 1:00 hour depending on ADD-ons
- Your skin may experience temporary irritation, tightness or redness. These are all normal reactions that typically resolve within 72 hours depending on skin sensitivity.
- You may experience tingling and stinging during the treatment area. These sensations generally subside within three hours of treatment.

AFTER PROCEDURE CARE

- The treatment area is more susceptible to sunburn, sun damage and hyperpigmentation. Avoid direct sun exposure and use a minimum of SPF 30 or more with 8-9% Zinc.

- Aggressive exfoliation, waxing and products containing acids should be avoided in the treatment area for a minimum of two weeks pre and post treatment.
- Avoid the use of Retin A type products pre and POST treatment.
